

## IRFEN® PALISADE

Irfer Palisade, the product we brought to the Irish Market in 1974. Used in almost every application requiring security or perimeter definition.

- Good visibility
- Varying levels of security depending on specification chosen

Available in our exclusive Plasgalv® finish

## RAILING PRODUCT RANGES

We offer a comprehensive range of Railings; we have Solid Bar on short delivery, Decorative and Custom Designed Products either to our Specification or to your own design. Pedestrian Barriers manufactured to rigorous safety standards. Additionally we have our System ranges which offer the best value for money on the market, our special range designed for Parks and Estates, and finally our Contour Range which can adjust to ground contours. Full information is on separate leaflet and from our website.

## GATES

We offer a complete range of gates to match our fence and railing designs, or to individual design. Gates can be swing, slide, cantilever, manual and of course a full range of automation options.

Available in our exclusive Plasgalv® finish.

## AUTOMATED DOMESTIC GATES

Domestic automated gates to a range of standard designs, or individually designed. Motors can be above or below ground, sliding or swing, controlled by remote control or switch.

Available in our exclusive Plasgalv® finish.

## DELTA CANTILEVER GATES

Cantilever gates offer a number of advantages over sliding gates, no track required, minimal site works, limited work interruption, installed in hours not days.

Available in our exclusive Plasgalv® finish.

## Mesh Chainlink & Netting Products

We offer the widest range of weld mesh products on the Irish market, in panel or roll form, as well as traditional Chainlink Mesh in rolls. Our High Netting Ballstop Systems go up to 10 metres high.

Available in our exclusive Plasgalv® finish.

Kylemore is the most popular type of weld mesh, with a 50mm x 200mm aperture.

- Excellent visibility.
- Security level reasonable.
- Our most economic mesh product.
- Panel crimped.

Available in our exclusive Plasgalv® finish.

## KYLEMORE MESH

## KILBARRY PERIMETER MESH

Kilbarry is a striped effect mesh using a 6mm wire almost double the strength of competitive products.

- Limited visibility.
- Security good.
- Panel crimped.

Available in our exclusive Plasgalv® finish.

Kinsale Twin Wire 868, same size aperture as Kylemore but twin wires back and front give much better strength.

- Excellent visibility.
- Security excellent.
- Panel flat.

Available in our exclusive Plasgalv® finish.

## KINSALE TWIN WIRE 868

## KINSALE TWIN WIRE SPORTS MESH 868 INCORPORATING MULTIMESH REBOUND PANELS

Kinsale Sports Mesh with inbuilt rebound panel. Perfect rebound, no need for timber kicking board, designed for hard use in all-weather and 5-a-side pitches.

- Excellent visibility.
- Designed for Sporting Applications.
- Flat panel.

Available in our exclusive Plasgalv® finish.

Kickshots, not a mesh, a structurally designed panel which offers extremely high levels of strength in areas where vandalism is an issue. The perfect product for small play areas or stand alone goal or basketball ends.

Available in our exclusive Plasgalv® finish.

## KICKSHOTS

## KILMAINHAM 358 SECURITY PRISON MESH

Kilmainham 358 Security Prison Mesh for use in prison or high security applications, the most secure weld mesh system available.

- Limited visibility.
- Excellent security.

Available in our exclusive Plasgalv® finish.
